Software Developer • UI/UX Designer • AI & Prompt Engineering Specialist

PROFESSIONAL SUMMARY

Final-year BCA student at CMPICA, Charusat University with a strong foundation in full-stack web development, UI/UX design, and software architecture. Proficient in Java, JavaScript, React.js, and Node.js, with hands-on experience building practical, user-focused applications.

Also experienced in digital marketing, including SEO and social media optimization. Certified in AWS Bedrock AI and Prompt Engineering, with a growing interest in leveraging generative AI to develop smarter and more efficient solutions. Passionate about continuous learning and applying modern technologies to solve real-world problems.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, Java, SQL, C#, PHP, C, C++

Frameworks & Libraries: React.js, Node.js, Flutter

Mobile Development: Android Development (Java)

Design Tools: Figma, Adobe XD, Adobe Photoshop, CorelDRAW, Canva

CMS & Platforms: WordPress, Odoo

AI & Automation: Prompt Engineering, Generative AI Tools, AWS Bedrock AI, AI-Assisted Development

Productivity Tools: Microsoft Excel, PowerPoint, Word, Google Workspace (Docs, Sheets, Slides)

Core Competencies: Software Architecture, UI/UX Design, SEO, SMO, Social Media Branding, Graphic Design

WORK EXPERIENCE

SMO, SEO Specialist & Graphic Designer | AcoTax, Nadiad

Dec 2023 – Present

Strategically managed and optimized social media platforms (Instagram, Facebook, LinkedIn) to enhance brand visibility, audience engagement, and digital presence
Designed high-quality marketing creatives using Adobe Photoshop, CorelDRAW, and Canva, ensuring alignment with brand identity and campaign objectives
Implemented foundational SEO strategies, including keyword optimization, meta tag structuring, and backlink development to improve search engine rankings
Maintained consistent brand communication and visual identity across all digital channels
Analyzed performance metrics and leveraged data-driven insights to refine marketing campaigns and improve ROI
Collaborated cross-functionally to develop SEO-optimized content and support integrated digital marketing initiatives

PROJECTS

Health Hub Pro | 2024

Healthcare Management Application

- Built a complete healthcare app to manage appointments, patient records, and medical data
- Developed a responsive frontend using React.js for smooth use across devices
- Integrated APIs for real-time data handling and secure information management
- Designed user-friendly UI/UX in Figma for better accessibility and experience

PaperBull | 2025 (Key Project)

Paper Trading & Stock Market Simulation Platform

- Created a stock market simulation platform for risk-free trading with virtual portfolios
- Developed an interactive dashboard with live charts, trade history, and real-time insights
- Implemented realistic trading logic to mimic real market conditions
- Focused on data-driven UI to highlight key financial metrics and user decisions
- Enabled users to learn investing concepts through hands-on simulated trading experience

Business Tycoon Game | 2023

Strategic Business Simulation Game

- Developed a business simulation game with idle mechanics and decision-based growth
- Built core logic for resource management and economic simulation
- Designed interactive UI with animations for engaging gameplay

Gym Pulse (SaaS) | 2025 – Present

Gym Management SaaS + Mobile Application

- Currently building a SaaS-based gym management system using React.js

- Developing a mobile app (APK) for clients to track workouts and gym activities
- Focused on features like workout plans, client management, and real-time updates
- Designing a scalable system for gym owners to manage and customize services

AI & EMERGING TECHNOLOGIES

- Certified in AWS Bedrock AI & Prompt Engineering (95%) with hands-on AI solution development
- Used prompt engineering to automate tasks and speed up development with LLMs
- Integrated AI tools for content generation, summarization, and UI personalization
- Familiar with AI-assisted development (vibe coding) and modern AI workflows
- Actively exploring generative AI and automation frameworks

CERTIFICATIONS

Bedrock AI Certification Amazon Web Services (AWS)	2025
Prompt Engineering Course Online Certification — Score: 95%	2025
Vibe Coding Certification AI-Assisted Development	2025
Oracle Java Foundations Oracle — Score: 92%	Sept 2025
Python 101: Develop Your First Python Program Coursera — Score: 83%	Oct 2025

EDUCATION

Bachelor of Computer Applications (BCA) CMPICA, Charusat University, Gujarat	Expected July 2026
CGPA: 7.31 Current Semester: 6	

Relevant Coursework: Software Engineering, Data Structures, DBMS, Web Technologies, OOP, Computer Networks

Higher Secondary Certificate (HSC) – Commerce Vision School of Science	Completed May 2023
• Percentage: 55.14%	
• Key Subject: Accounts – 86/100	

SOFT SKILLS

Teamwork & Collaboration, Effective Communication, Leadership & Project Ownership, Creative Problem-Solving, Adaptability & Continuous Learning

HOBBIES AND INTERESTS

Traveling
Networking
Reading
Content Creation
Learning New Technologies

DECLARATION

I hereby declare that the above information is true and correct to the best of my knowledge. I will give my best if given an opportunity.
